

# AUTONOMY FOR GNIT

*GURU NANAK INSTITUTE OF TECHNOLOGY welcomes experts of inspection for conferring autonomy status during 20<sup>th</sup> and 21<sup>st</sup> November 2015.*

*Autonomy empowers the institute with freedom for the teachers; that happens to be the key to the development and facilitates broadening the spectrum of intellect in the academic environment so as to achieve excellence in higher education system and in Industry oriented education as well.*

*As an autonomous Institute courses could be developed in accordance with the global standards. The institute could conduct own examinations, evaluate answer scripts, ensure publication of results on time. Furthermore the Institute with academic and operative freedom are doing better and have more credibility.*

*Seminars, workshops and consultations are being organized to sensitize the stakeholders with the concept, objectives and rationale of autonomy.*

*Representatives of the Institute's staff and students could obtain recommendations from diverse stakeholders involved in doing well in their academic standards and promotes student centric learning assuring enhancement of employability.*

*Curricular development, improved examination system and innovations in pedagogy need to be introduced using modern tools of technology in order to make education globally competitive.*
