Criterion 7.1.1.

Child Daycare Centre

The Institute also has a Child Daycare Centre with facilities for caring of children of female employees. There is a comfortable, secure and caring ambience, where children, mostly pre-schoolers and young children can play, take rest and spend time while their mothers are at work. There is also a lady attendant to supervise the children. This kind of a caring, safe and supportive environment is especially valuable to working mothers who can work comfortably throughout the day while their children are at the Daycare Centre.

Facilities available at the Centre include the following:

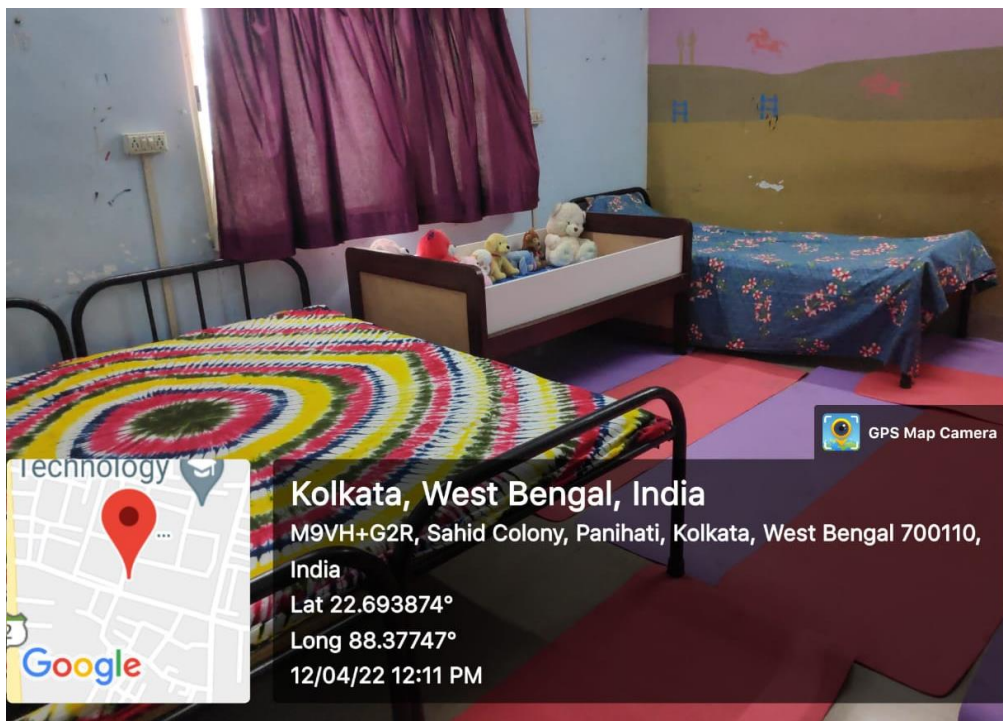

- A bed and mattress for the children
- Adequate play space
- Comfortable sitting arena
- Toys and games for the children

**The Child Daycare Centre: A Home Away from Home
for the Children of the Institute's employees**

Comfortable Ambience

Safety and security of young children is of the utmost priority to working mothers. The Institute provides a safe haven for the children, where they can spend the greater portion of the working day. This is also a boon to working mothers who are employees of the Institute, as they can concentrate on their daily working tasks and have the reassuring knowledge that their children are being well looked after. The Daycare Centre has a comfortable room, which is fully safe, sanitized and with no health hazards for the young children. There is a comfortable bed, a soft mattress and pillows so that the children can be comfortable. The Centre is curtained so that the children can be protected from the glare of sunlight in the afternoons.

Restful Ambience: the beds are comfortable and the bright colours give the Centre a cozy and inviting look

An Inviting Play Space

The Centre is well equipped with toys and games so that the children can keep engaged and spend time in joyous play . There are soft toys like teddy bears, rabbits, toy dogs, monkeys and dolls which are soft and cuddly for children to handle and totally safe. They are also chosen with warm colours and inviting textures so that children find them attractive. The Centre has an experienced ayah who loves and takes care of the children. She also takes care of them at meal times and sees that they are comfortable. In case of any illnesses or minor injuries she also takes care and ministers to the children.

Toys of all kinds fill the play space to keep the children company
